MINSK GRAPE WINE FACTORY

МИНСКИЙ ЗАВОД ВИНОГРАДНЫХ ВИН

EST. 2000

HISTORY OF THE COMPANY

JSC "Minsk Grape Wine Factory" was founded in 2000.

On August 8, 2000 the enterprise has received the certificate on production of alcoholic products, and this day is considered an official birthday of the company.

Over the years the range has been extended and today in the line of the enterprise there are over 300 product names.

In the spring of 2008 the company acquired the factory in the city of Brest which became a base of the Brest branch of the enterprise.

In several years this factory became one of the largest producers of alcoholic beverages in the Republic of Belarus. In 2016 the company became the majority shareholder of one of the oldest distilleries of the country.

THE COMPANY NOW

At the moment JSC Minsk Grape Wine Factory – the market leader in winemaking in Belarus. Also the company enters in TOP-3 of the largest manufacturers in the market of strong alcohol beverages. The number of production sites – 2 factories (Minsk and Brest), and also the distillery "Chisti istok 1872" in Vitebsk region.

Number of employees - more than 950 people.

Minsk: production volume - more than 30 million product units per year.

Production capacity: more than 34 million liters per year.

Brest: production volume - more than 58 million product units per year.

Production capacity: more than 67 million liters per year.

The company steadily enters in TOP-10 of the largest taxpayers of the country, trailing only the companies of the oil and gas sector.

PRODUCTION

The company uses modern European equipment for storage, processing and bottling products. The factory in Minsk became the first domestic enterprise of secondary winemaking to apply the method of "cold bottling". The specificity of this progressive technology lies in the fact that the wine is not subjected to heat treatment, its useful properties and the original organoleptic retain.

The factory has its own laboratory where a strict multi-level technological control is implemented at all stages of production.

BASIC KINDS OF PRODUCTS:

MINSK:

- Still wines
- Soviet Champagne
- Sparkling and effervescent wines
- Vermouths
- Wines in TetraPak

BREST:

- Vodka
- Flavoured vodkas
- Authentic Belarusian drinks
- Distillates
- Liquors
- Bourbon
- Gin
- Balsam
- Whiskey
- Tequila
- Rum
- Cider
- Low-alcoholic beverages
- Soft drinks

МѢНСКЪ

ANCIENT RECIPE

The processing of vodka through relict natural flint.

Premium vodka "МѢНСКЪ" has been specially created for the 950th anniversary of the city, which will be celebrated in 2017. It is designed in the style of the ancient history of Minsk, rich not only with historical events, but also with legends.

Once upon a time between Tatar end and Perespenski bridge just by the side of Vilenski postal road the famous strong man and sorcerer whose name was Menesk (or Menski) settled and built a big stone mill with seven wheels on Svisloch river. People say that no one has ever seen him, and yet the neighborhoods of the Svislach land are filled with the most fantastic tales of his strength and heroism: people say that in his mill, the flour was not molten from grain grains, but from stones; that at night there were heard some strange cries, geeks, songs, music and dancing; that at midnight he drove along his roads on his mill and gathered a squad of brave, strong people, from whom a separate nation subsequently formed, who had settled down next to the sorcerer's mill. Here the city was founded and named after its legendary founder - Menesk - Minsk.

STATUT

GOLD

LONDON

MOSCOW

«STATUT» - PREMIUM VODKA WITH DIAMOND FILTRATION

The main idea of creating this brand was the desire to remind our contemporaries about the 485th anniversary of the release of the «Statute of the Grand Duchy of Lithuania in 1529».

«The Statute of the Grand Duchy of Lithuania» (statute - charter (Old Belarusian)) - this is the highest achievement of the Old Belarusian legal thought and the basis of the entire legal system of the GDL.

This document is an original medieval constitution that operated on **all** lands of modern Belarus and was one of the most progressive in Europe.

«Statut» is an advanced and innovative brand. Even the most picky and capricious buyer will appreciate the neutral flavor and softness of the product, achieved by the use of special diamond filtration technology.

T-shaped cap with protective holographic stripe.

Title page of the Statute.

There is the fragment of moral farewell to the judges to judge according to the statute impartially, according to God's justicemarked.

[illegible]

Coat of arms.

The basic elements are taken from the real coat of arms in the Statute of 1529.

Bottle shape:

- straight, upward-directed forms;

- modern design;

- the edges on the bevels emphasize the shape of the crystal of the diamond.

Engraving of side edges.

Confirmation of the status and noble origin of vodka "Statut".
The original signature of King Sigismund, the creator of the Statut, was used.

Gygerius Rex

Bottle bottom.

It is made in the form of a diamond, symbolizes the purity of vodka after the diamond filtration.

SVAYAK

BELARUSIAN CHARACTER OF THE PRODUCT

The new design of Svyak emphasizes the Belarusian character, the Belarusian origins of the brand, uses the ancient national ornament called Kryzh (bel.) –Krest (Cross) (rus.).

High-quality grain alcohol "Belalpa"

SVAYAK. NEW STANDARD OF QUALITY

FILTRATION SYSTEM x5 MULTIFILTRATION

«Svyak» is produced on modern equipment using the technology of stage-by-stage processing and filtration of water and alcohol.

Multifiltration is a 5-level filtration system:

- x1 - ion exchange filter;
- x2 - molecular filtration of water;
- x3 - quartz sand;
- x4 - birch charcoal;
- x5 - platinum filter.

Vodka acquires an extraordinary softness, harmony, noble taste and aroma.

NEW

- alcohol "Platinum"
- innovative cap with natural black silicon

Traditional rye Belarusian distillate

ПЕРВОГОН

“REAL MOONSHINE”

“Pervogon” is a traditional Belarusian strong alcoholic drink prepared with a classic distillation method in a copper still.

- 100% grain distillate.
- It is prepared from rye grain.
- It is not aged.
- Expiration date - isn't limited at observance of storage conditions.
- Each bottle of “Pervogon” has its own individual number at the bottom of the front label.
- Selected rye grain and careful, unhurried distillation create a generous taste and aroma of warm home-made bread.
- Taste and aroma of rye “Pervogon” are most fully revealed at room temperature. It is not recommended to cool.

JSC "Vinaria din Vale" is the largest producer of wine in Moldova. The enterprise owns more than 1 thousand hectares of vineyards and 3 factories for production of grape wines. The company's vineyards are located in the most favorable areas of Moldova- in the territory of Codru and in the Southern region of the country. The strategic partner of JSC "Vinaria din Vale" in the Republic of Belarus is the largest producer of grape wines of the country - JSC "Minsk Grape Wine Factory".

WHICH WILL BE APPRECIATED BY THE
GOURMENT. REFINED GERMAN CHIC
AND SOFT RHINE TASTE!

Marquis de Lacroix

Harvest year 2015

The wines "Marquise de Lacroix" are made
from selective grape varieties, the vines
of which were brought to Moldova from
France a few years ago, so the impecca-
ble properties of the French grapes
received new quality improvements due
to the fertile land and the bright Moldovan
sun. The wine was aged in oak barrels.
